ISO 14001: 2015 (JQA-EM6118) Head Office / Wadayama Plant / Santo Plant

Lineup of products manufactured by Sunpolymer

Our production lines can quickly respond to orders received from customers for all products.

Extrusion molded products

Silicone rubber extrusion

Available in various hardnesses and colors. Flame-retardant, high-strength, and highly heat-resistant types also available.

Silicone rubber sponge extrusion

Available in various hardnesses and colors. High sealing performance achieved at a low load. High-strength and highly heat-resistant types also available.

Synthetic rubber extrusion

Available in various hardnesses, colors, and materials (natural rubber, CR, NBR, and EPDM).

Fluoro rubber extrusion

Characterized by superb resistance to oils and chemicals and chemical stability. We can manufacture two types of products :

- ◎ Fluoro rubber extrusion products
- ◎ Fluoro rubber sponge extrusion products

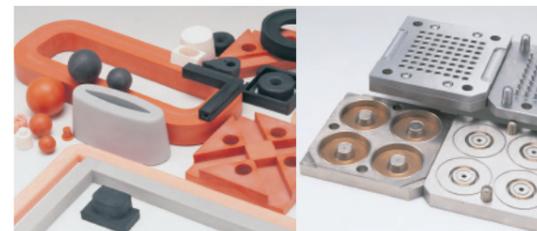

We manufacture extrusion-molded products to order, from fabrication of nozzles in principle.

Molded products

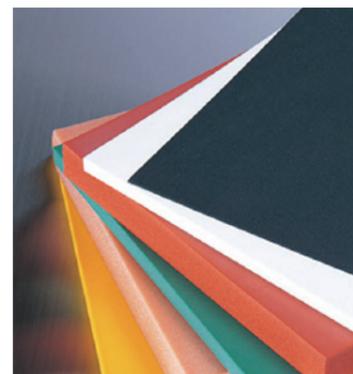

Rubber molded products

Press-molded synthetic rubbers (mainly silicone rubber). High molding precision.

We have an integrated manufacturing system from mold fabrication to manufacture of molded products.

ESP series high-functionality sponge sheets

Main products

- Silicone rubber sponge
- Flame-retardant (UL94V-0) silicone rubber sponge
- Fluoro rubber sponge
- Silicone-modified rubber sponge

■ In addition to sheets in the basic regular size.

Adhesive sheets (with double-sided tape)

Shaping

Punching

Cutting

ESP is the generic term for high-functionality sponge sheets manufactured by Sunpolymer Corporation.
